Summary

Computer Science undergraduate and Software Development Intern with a strong foundation in Java, Data Structures & Algorithms, OOP, and DBMS. Built and deployed full-stack web applications with REST APIs, relational databases, and JWT/Clerk authentication. Seeking SDE internship and entry-level software engineering roles.

Experience

Software Development Intern Sep. 2026 – Present
KyronDataTech *Remote*

- Developing React dashboards for a simulated banking and UPI payment platform, with separate customer, merchant, and bank-staff views
- Implementing UPI transfer flows (MPIN verification, VPA lookup, transaction history) connecting the React frontend to the Java REST backend
- Integrating JWT-secured API calls, role-based access, and a Maker–Checker approval view in the frontend

Education

Parul University Vadodara, Gujarat
B.Tech in Computer Science and Engineering — CGPA: 7.66/10 (through Semester 6) *Aug. 2023 – May 2027*

Projects

Teerthankar AI Platform | *Next.js 14, PostgreSQL, Prisma ORM, Gemini AI, Clerk, Inngest* GitHub | Live Demo

- Built an AI career platform with 3 modules: Resume Builder, Cover Letter Generator, and Mock Interview
- Integrated Google Gemini APIs for career content generation; automated industry-data refresh with Inngest event-driven jobs
- Configured Clerk authentication with protected routes, session management, and RBAC to isolate user data

Full Stack E-Commerce Platform | *React.js, Node.js, Express.js, SQLite, JWT, bcrypt* GitHub | Live Demo

- Developed a full-stack store with a React 19/Vite frontend and Express.js REST API covering product browsing, cart, and order workflows for 2 roles (user and admin)
- Protected APIs with JWT, bcrypt hashing, role-based routes, Helmet, and rate limiting; persisted products, orders, and users in SQLite via Sequelize ORM
- Shipped an admin dashboard, proxied the Unsplash API through the backend, and deployed on Vercel

Personal Portfolio Website | *Next.js, React.js, Tailwind CSS* GitHub | Live Demo

- Designed and deployed a mobile-first portfolio with reusable React components, showcasing 8 projects

Technical Skills

Languages: Java, JavaScript, Python, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, Java Servlets, JSP, JDBC
Databases: PostgreSQL, MongoDB, MySQL, SQLite
Auth & Security: JWT, bcrypt, Clerk Authentication, RBAC, Session Management
Developer Tools: Git, GitHub, Postman, Prisma ORM, Sequelize ORM, Vercel, Render, Inngest, VS Code
Core CS: Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks

Achievements

- Solved 100+ DSA problems in Java on LeetCode (arrays, hashing, two pointers, recursion, backtracking, dynamic programming)
- Participated in 2 hackathons (Wind Hackathon, ODOX Hackathon), building collaborative solutions under time constraints

Certifications

- IBM — AI Fundamentals; Getting Started with AI
- Cisco — Introduction to Modern AI
- AWS — Cloud Practitioner Essentials; Academy Cloud Foundations
